Appendix 1:

We refer to the questions being raised by the Minority Shareholders Watch Group's letter dated 22 February 2023. Accordingly, our responses to the questions being raised are disclosed as follows:

Operational & Financial Matters

1. "In spite of various challenges within the South East Asian region, we continue to invest our resources into this geographical region because we see good potential growth over the longer term. Moreover, the challenging economic backdrop may actually produce several business and investment opportunities which may yield tangible results for us in the longer term provided that these opportunities fall within the Group's risk-adjusted return profile." (Page 6 of the FY2022 Annual Report).

How much capital expenditure is allocated for FY2023 and what are the investments to be made in FY2023?

Response:

Our approved capital expenditure for FY2023 is RM 22.5 million and this is allocated towards building new barges as well as the acquisition of an additional aircraft.

The Board continuously engages with key management personnel of the operating units to ascertain resource requirements including capital expenditures and investments. At this point in time, the Board has not approved any new investments for FY2023.

2. The Group has been profitable since FY2021. With promising shipping orders and positive long-term outlook for the shipping industry within the South East Asian region, as disclosed in the Annual Report FY2022, does the Board intend to resume dividend payment in the foreseeable future?

Response:

After many years spent reorganizing and restructuring the Group's finances following the exit from the container shipping business, the Group has finally turned the corner. Profits from our operating units were reinvested into the current operations which are in an expansionary phase. The Group is undertaking fleet replacement/ expansion program which require cash in the short term but will enhance the profitability and improve the Group's cash position in the future.

The Group intends to resume dividend payments upon reaching a healthy retained profits and cash flow position.

3. What were the key components in administrative expenses and other operating expenses and what were the reasons for the jump in these expenses from RM24.245m for FY2021 to RM33.768m for FY2022?

Response:

The key components of Administrative and other operating expenses comprised lease expenses, depreciation, directors and employee benefits expenses, impairment losses and foreign exchange losses.

Administrative and other operating expenses increased from RM 24.3 million to RM 33.8 million predominantly due to higher depreciation, directors and employee benefits expenses and write-off in value of property, plant and equipment.

4. The effective interest rate for credit card facilities was 18.00% in both FY2021 and FY2022 (page 130 of the Annual Report FY2022) and the Group incurred credit card interest of RM31,593 and RM38,830 in FY2021 and FY2022 respectively. Why did the Group utilise the credit card facilities when the credit card interest was significantly higher than other types of borrowings which ranged between 2.26% and 8.40%?

Response:

The credit card facilities were used by our aviation segment for payment of certain travel expenses, insurance, aviation fuels, spare parts and other aviation related charges.

The credit card facilities had to be utilized during the year whenever the segment's cash flow needs were not adequately matched by proceeds from receivables. However, we take note of your comments and will endeavor to minimize interest expenses by better utilization of our credit facilities.

5. Resolution 6 of the 47th AGM is to seek shareholders' mandate for allotment and issuance of shares pursuant to Section 75 and Section 76 of the Companies Act 2016. Does the resolution include waiver of the statutory pre-emptive rights of the shareholders of the Company to be first offered new Hubline Shares arising from any issuance of Hubline Shares pursuant to the above general mandate under Section 85 of the Act?

Response:

Resolution 6 of the 47th AGM did not include a waiver of the pre-emptive rights of the shareholders of the Company to be first offered new Hubline Shares arising from any issuance of Hubline Shares pursuant to the general mandate of Section 85 of the Act.

We will ensure that any future resolutions seeking shareholder's mandate for allotment and issuance of shares include a waiver of the pre-emptive rights under Section 85 of the Act.

For 2023, in the event we do decide to allot and issue new Hubline shares, we will hold an EGM to obtain shareholders' approval for waiver on the pre-emptive rights.
